

A workhorse that allows you to easily achieve professional results.
A powerful compact that will enlighten your embroidery horizons.

SAI

Introducing, SAI a new model that incorporates the technological advancements of the leading embroidery machine manufacturer; TAJIMA, that are used by name brand manufacturers. It is a compact and more affordable solution for new embroiderers.

FEATURES

The differences can be seen on this machine that was designed by an industrial embroidery machine manufacturer.

This machine incorporates the technological advancements of the world's leading embroidery machine manufacturer, TAJIMA. The machine has been designed to include the advancements of TAJIMA and also the ease of use of a home market machine.

Quality acceptable to an embroidery professional.

Production comparable to an industrial machine.

High quality precision parts provide a long life with low maintenance.

The small design allows the SAI to be used in almost any environment.

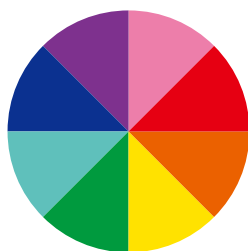

555mm (21.9inch)

Specially designed with a compact footprint for ease of use and location friendly. With a neutral white color the SAI will blend into almost any location without a problem. A machine idea to enhance ease of use, safe operation, and appearance designed by Toshiyuki Kita.

High Performance

Number of colors

With 8 colors you can create almost any design.
